Day 2

Las Vegas - Vehicle - Grand Canyon West Rim

Morning Breakfast

Breakfast Included

All day

Rise and shine! Today we are headed to the Grand Canyon which is one of the most famous of the Seven World's Natural Wonders! Take a walk on the glass bridge at the Skywalk or take a helicopter ride fly through the Grand Canyon! We will stay overnight in the Grand Canyon West! Grand Canyon West Rim Cabins: 1,000 feet away from the canyon edge. Here, you can enjoy an authentic western cowboy dinner (BBQ ribs) under the spectacular starry sky!

Itinerary:

Las Vegas → Grand Canyon West Rim (5 hours, include Skywalk)

All day

West Rim

The West Rim is the western end of the Colorado Canyon. It is a protected area of the Hualapai Indian Tribe. It was developed by investors and is not managed by the Grand Canyon National Park. It is within a three-hour one-way drive from Las Vegas. A U-shaped glass corridor, known as Skywalk, was also built here for everyone to feel the height and excitement of the canyon.

West Rim Skywalk

Unparalleled views of one of the world's Seven Natural Wonders await you at Grand Canyon West on Skywalk. This breathtaking 10-foot wide, horseshoe-shaped glass bridge extends 70 feet out over the rim of the Grand Canyon, giving you a clear view 4,000 feet to the Canyon floor below. There's simply no thrill like stepping out on glass thousands of feet in the air.

Day 3

Grand Canyon West - Vehicle - Lower Antelope Canyon - Vehicle - Horseshoe Bend - Vehicle - Page, AZ

Morning Breakfast

Breakfast Included

All day

Take a walk and enjoy the breathtaking sunrise view over the Grand Canyon! After breakfast, we drive to Lower Antelope Canyon which is known as one of the world's top ten most famous photographic locations! Explore the canyon with a Navajo guide and then visit Horseshoe Bend! We will also be staying overnight in Page AZ.

Itinerary:

Grand Canyon West → Lower Antelope Canyon (90 mins) → Horseshoe Bend (60 mins) → Page, AZ

All day

Lower Antelope Canyon

Lower Antelope Canyon is a slot canyon in the American Southwest, on Navajo Land east of Page, Arizona. Upon arrival at the Lower Antelope Canyon, you will be able to get off the truck and step into the desert and enter the amazing desert world. The tour guides will explain some geology, culture, history and insights about the place. By walking through the sandstone walls of the Lower Antelope Canyon, you will be immersed in its beauty.

Horseshoe Bend

Horseshoe Bend has been featured as a landmark for Glen Canyon National Recreation Area, Grand Canyon National Park, the Cities of Page AZ, Kanab UT, St George UT, and the Navajo Nation. Boundary lines are very close in some places. About nine miles downstream is where Grand Canyon National Park truly begins. A social media darling, Horseshoe Bend has become one of the most recognized and visited places in the Glen Canyon National Recreation Area.

Night

Hotel: Hampton Inn & Suites Page - Lake Powell

Day 4

Lake Powell - Vehicle - Bryce Canyon National Park - Vehicle - Utah

Morning Breakfast

Breakfast Included

All day

Lake Powell is nation's second-largest artificial lake which is surrounded by 96 side canyons. We will then explore the beauty of Bryce Canyon National Park and then drive to Salt Lake City to stay overnight.

Itinerary:

Lake Powell Kayaking (Optional, 60 mins) → **Bryce Canyon National Park** (60 mins) → **Utah**

All day

Lake Powell

Lake Powell is located in northern Arizona and stretches up into southern Utah. It's part of the Colorado River in Glen Canyon National Recreation Area. With nearly 2,000 miles of shoreline, endless sunshine, warm water, perfect weather, and some of the most spectacular scenery in the west, Lake Powell is the ultimate playground.

Bryce Canyon National Park

Bryce Canyon National Park is an American national park located in southwestern Utah. The major feature of the park is Bryce Canyon, which despite its name, is not a canyon but a collection of giant natural amphitheaters along the eastern side of the Paunsaugunt Plateau. Bryce is distinctive due to its geological structures called hoodoos, formed by frost weathering and stream erosion of the river and lakebed sedimentary rocks. The red, orange, and white colors of the rocks provide spectacular views for park visitors.

Morning Breakfast

Breakfast Included

All day

First of its kind, Yellowstone is home to world's largest super volcano and over 10,000 geothermal features. Here you can find everything you expect to see in a national park! Snow covered mountains, waterfalls, lakes, rivers, canyons, meadows, herds of buffalos, elks... and the most amazing geothermal features in the world! Geysers, hot springs, fumaroles and mud pots are the wonders that make Yellowstone truly unique. Sightsee Grand Prismatic Spring, Fountain Paint Pots, Old Faithful Geyser, Geyser Trail, Morning Glory...

Itinerary:

Utah → Yellowstone National Park (3 hours, Head to visit Palette, Grand Prismatic Hot Spring, Old Faithful Geyser, Fountain Trail, Morning Glory and other attractions. The tour guide will be adjusted according to the actual situation of the day, please refer to the actual arrangement.)

Afternoon

Yellowstone National Park

Yellowstone National Park, the first national park in the United States, is a true gem that you will not want to miss out on! Yellowstone offers spectacular scenic views year-round and a chance to watch animals that migrate in and out of the park! No matter where you are in the park you will get to see these spectacular animals! Here you will find bears, wolves, moose, elk, bison and more!

The Grand Prismatic Hot Spring

The Grand Prismatic Spring, approximately 370 feet (110 m) in diameter and 160 feet (50 m) deep, discharges an estimated 560 US gallons (2,100 L) of 160 °F (70 °C) water per minute. It is the largest hot spring in the United States, and the third largest in the world. The vivid colors in the spring are the result of microbial mats around the edges of the mineral-rich water. The mats produce colors ranging from green to red; the amount of color in the microbial mats depends on the ratio of chlorophyll to carotenoids and on the temperature gradient in the runoff. In the summer, the mats tend to be orange and red, whereas in the winter the mats are usually dark green. The center of the pool is sterile due to extreme heat.

Old Faithful Geyser

Old Faithful is a cone geyser in the Upper Geyser Basin of Yellowstone National Park. It is one of the park's most well-known natural features and is famous for its predictability. It generally erupts every 91 minutes.

Notes:

1. The East Gate of Yellowstone National Park is expected to open on 05/02/2025. Before that, the following attractions: Upper and Lower Falls, Artist Point, Hayden Canyon, Mud Volcano, Fishing Bridge, West Thumb Geyser will not be accessible. Please understand.
2. The South Gate of Yellowstone National Park is expected to open on 05/10/2025. Therefore, West Thumb Geyser will not be accessible from 05/02/2025 to 05/09/2025. Please understand.

All day

Yellowstone National Park

Yellowstone National Park, the first national park in the United States, is a true gem that you will not want to miss out on! Yellowstone offers spectacular scenic views year-round and a chance to watch animals that migrate in and out of the park! No matter where you are in the park you will get to see these spectacular animals! Here you will find bears, wolves, moose, elk, bison and more!

West Thumb Geyser Basin

The West Thumb Geyser Basin is situated at the western edge of a large bay along the shores of Yellowstone Lake. This area is known as the West Thumb caldera which was formed by a volcanic eruption that took place 174,000 years ago. This bay is actually a smaller caldera within the larger Yellowstone caldera. The resulting caldera filled with water, creating the bay.

Mud Volcano Area

The Mud Volcano blew itself apart in the early 20th century, but visitors can still see the impressive crater and other geothermal features in the surrounding area, such as the Mud Cauldron, Black Dragon's Caldron, and Dragon's Mouth Spring.

Artist Point

Artist Point is one of the most spectacular scenic areas in the Canyon Area of the Park. The sheer walls drop 700 feet to the bottom of the canyon. Upriver the powerful Lower Falls are still in view. Downriver the canyon widens and deepens to a maximum of 1,540 feet. The canyon walls are predominantly yellow but colors of blue, red, orange and brown are also present. The colors are ever changing and especially intensified after a rain with bright sunshine.

Upper Yellowstone Falls

Located a quarter mile upstream of the larger Lower Falls, the Upper Yellowstone River Falls plunge 109 feet down an eroded lava cliff into the basin below. The area below the falls has been subject to heavier erosion than above.

Yellowstone Norris Geyser Basin

Norris Geyser Basin, named after an early Yellowstone Superintendent, may be the hottest geyser basin in Yellowstone. The stark, barren landscape of Porcelain Basin is the result of the acidic environment. Due to the hostile condition plants, algae and bacteria have difficulty in establishing themselves. Instead, the basin derives its colors from mineral oxides, in spectrums of pink, red, orange (iron oxides) and yellow (sulfur and iron sulfates). The largest geyser in the world is located here. Steamboat Geyser has long periods of dormancy, but when it does erupt it sends jets of water nearly 380 feet high in a spectacular display.

Day 7

Yellowstone - Vehicle - Grand Teton National Park - Vehicle - Jackson - Vehicle - Salt Lake City

Morning Breakfast

Breakfast Included

All day

Join us as we continue to explore Yellowstone National Park! Afterwards, we will travel along the Snake River to Grand Teton National Park, where we will see this natural wonder's amazing view. Following, we will drive to Jackson, a famous cowboy town as well as a world's renowned vacation destination. Be sure to visit the Jackson Town Square with Elk Antler Arches which is located in the center of Jackson until we arrive in Salt Lake City to visit the Great Salt Lake.

Itinerary:

Grand Teton National Park (60 mins) → **Jackson** → **Jackson Town Square with Elk Antler Arches** (60 mins) → **Great Salt Lake** (20 mins) → **Salt Lake City**

Kindly Reminder:

1. Before the South Entrance of Yellowstone opens on May 10th, some attractions in Yellowstone may be closed due to snow, and additional stops will be made to replace according to weather and road conditions.
2. Complimentary farewell dinner: Korean BBQ buffet dinner.

Morning

Grand Teton National Park

Grand Teton National Park is located in the Rocky Mountains, Northwest Wyoming. Grand Teton National Park is noted for its stunning mountain vistas and its shimmering alpine lakes. It is also home to a variety of abundant wildlife.

Jackson Town Square with Elk Antler Arches

Jackson Town Square has four arches and is made with thousands of elk antlers that make it so unique. It is such an amazing place to discover filled with unforgettable memories.

Afternoon

Great Salt Lake

Great Salt Lake, lake in northern Utah, U.S., the largest inland body of salt water in the Western Hemisphere and one of the most saline inland bodies of water in the world. The lake is fed by the Bear, Weber, and Jordan rivers and has no outlet. The lake has fluctuated greatly in size, depending on the rates of evaporation and the flow of the rivers that feed it. Like the Dead Sea, the Great Salt Lake exists within an arid environment and has chemical characteristics like that of the oceans. However, it has a much greater salinity than the oceans, since natural evaporation exceeds the supply of water from the rivers feeding the lake.

Morning

Utah State Capitol

The Utah State Capitol is the house of government for the U.S. state of Utah. The building houses the chambers and offices of the Utah State Legislature, the offices of the Governor, Lieutenant Governor, Attorney General, the State Auditor and their staffs. The capital is the main building of the Utah State Capitol Complex, which is located on Capitol Hill, overlooking downtown Salt Lake City. The Neoclassical revival, Corinthian style building was designed by architect Richard K.A. Kletting and built between 1912 and 1916. The building was added to the National Register of Historic Places in 1978.

Temple Square

Temple Square is a 10-acre (4.0 ha) complex, owned by The Church of Jesus Christ of Latter-day Saints (LDS Church), in the center of Salt Lake City. Contained within Temple Square are the Salt Lake Temple, Salt Lake Tabernacle, Salt Lake Assembly Hall, the Seagull Monument, and two visitors' centers. The square was designated a National Historic Landmark District in 1964, recognizing the Mormon achievement in the settlement of Utah.
