It is one of the most popular tourist attractions in Seattle and offers breathtaking views of the city and its surroundings.

At the base of the Space Needle, there are also several museums, theaters, and cafes, where visitors can learn about the history and culture of Seattle. The design of the Space Needle was inspired by the space age and science fiction, and it has become an iconic symbol of modern architecture.

The Space Needle is one of the most recognizable landmarks in Seattle and attracts visitors from around the world.

Pike Place Market

Pike Place Market is one of Seattle's most iconic and beloved landmarks, located in the heart of downtown overlooking Elliott Bay. It's one of the oldest continuously operated public farmers' markets in the United States, dating back to 1907. Pike Place Market is renowned for its bustling atmosphere, diverse array of vendors, and stunning views of Puget Sound and the Olympic Mountains.

Visitors to Pike Place Market can explore multiple levels filled with stalls selling fresh produce, seafood, flowers, artisanal goods, crafts, and international cuisine. It's a vibrant and bustling marketplace where locals and tourists alike come to shop, eat, and soak up the lively atmosphere.

One of the market's most famous attractions is the Pike Place Fish Market, where fishmongers famously throw fish to each other and entertain crowds of onlookers. Additionally, visitors can marvel at the original Starbucks store, located just across the street from the market's main entrance. Beyond the market stalls, Pike Place Market is also home to a variety of restaurants, cafes, and specialty shops, as well as the Market Theater Gum Wall, an unusual tourist attraction where visitors leave chewed gum on the walls of an alleyway. Overall, Pike Place Market offers a quintessential Seattle experience, blending history, culture, and culinary delights in a vibrant and picturesque setting.

Day 3

Medford - Vehicle - **Shasta Dam** - Vehicle - **Sundial Bridge** - Vehicle - **San Francisco**

All day

Drive to Shasta Dam in the morning, the most famous in California! It will certainly bring you with an unexpected big surprise! It has been called one of the greatest engineering feats of all time. Then we will drive to Sundial Bridge. Made of glass, the Sundial Bridge crosses above the Sacramental River, and is absolutely a work of art. Then, we will return to the Bay Area in the evening to finish our pleasant and unforgettable Ring of Fire National Parks and Amtrak Coast Starlight Trip.

Itinerary:

Medford → Shasta Dam (Mandatory, 60 mins) → Sundial Bridge (30 mins) → San Francisco

All day

Shasta Dam

Shasta Dam, dwarfed only by Hoover and Grand Coulee dams when it was completed on the Sacramento River in 1945, is breathtaking not only for its great size, but for its majestic setting in the southern range of the Cascades. The 602-foot-high, concrete, curved gravity dam holds back an immense blue reservoir, Lake Shasta, which boasts a 365-mile shoreline nestled amid evergreen hills and the snow-covered volcanic peak of Mount Shasta.

Sundial Bridge

The Sundial Bridge at Turtle Bay is a world-famous pedestrian bridge and public art installation that crosses the Sacramento River in Redding and connects the north and south campuses of Turtle Bay Exploration Park. As the name suggests, the Sundial Bridge is, in fact, a working sundial and is one of the largest in the world. The sundial shadow traces such a large arc that it can record only four hours a day, from 11am - 3pm. However, it is not accurate in winter times because the shadow is cast too far into the arboretum to be seen. The bridge celebrates human creativity and ingenuity, important themes of the 300-acre Turtle Bay Exploration Park. The steel, glass, and granite span evoke a sense of weightlessness, and the translucent, non-skid decking provides for spectacular viewing at night. The bridge is also environmentally sensitive to the river setting.
