Upon arrival, guests are greeted by a large video board featuring welcome messages in various languages, and their hometowns are highlighted on a dynamically generated world map. "Voices" offers a unique experience, where the story of the people who built the building recounts their experiences, while "Foundations" provides an up-close look at the bedrock on which the building stands. Voyage to the Falls Boat Tour

The Niagara Falls boat is always the most famous way to have fun at Niagara Falls. Put on a thin red raincoat, take the white double-decker cruise ship, and the most exciting waterfall trip will begin. The Niagara Falls boat, which looks quite historic but very sturdy, will bravely sail all the way from the river bank to the waterfall and enter the horseshoe-shaped center circle of the waterfall. The abundant river water rushes towards you like a thousand horses galloping. Suddenly, the strangers on the boat seem to become the same boat. In the hazy water, you can personally feel the momentum and power of the waterfall. After leaving the storm circle, the cruise ship is like a small boat that has returned from a disaster, swaying towards the American Falls. When the weather is clear, the sunlight and water vapor interweave to form a long and beautiful rainbow, projected in front of the veritable "Rainbow Bridge".

or

Journey Behind the Falls

This is one of Niagara's oldest tourist hotspots. Take the elevator down 125 feet and through a short tunnel you will reach two outdoor observation decks and two entrances directly behind the falls. Walk to the upper and lower observation decks to experience the magic of Horseshoe Falls from directly below the falls. You will experience the spectacular sight of one-fifth of the world's fresh water rushing into the basin below. The height at the foot of the observation deck may make you "wet" or amazed, but don't forget that after all this, one-fifth of the world's fresh water, Niagara Falls, a must-see in a lifetime, will appear before your eyes!

Skylon Tower

The Skylon Tower allows visitors to get a better view of Niagara Falls. It is the closest tower to the Horseshoe Falls. It is over 100 meters high. Half of the elevator leading to the observation deck on the top of the tower is inlaid with glass, so you can enjoy the scenery while the elevator is going up and down. There are theaters and game venues in the tower, and the top floor is a revolving restaurant. You will have the opportunity to enjoy a meal in the famous 360-degree revolving restaurant, or enjoy a more family-friendly casual dining in the Summit Suite buffet restaurant in the tower. The beautiful scenery is in full view. Whether it is a romantic meal for two or a family vacation, you can enjoy the luxurious and superior dining environment and world-class culinary cuisine! You can quietly pass through the winding secret passages that extend throughout the castle, visit the beautifully decorated rooms engraved with the marks of the times, and explore the legendary memories that have been deposited for a hundred years; you can also go up to the tower to enjoy the charming and unique scenery of Toronto. Many Hollywood movies have been filmed here, and many charity events and high-society parties are often held here. The ceiling of the lobby on the first floor is beautiful plaster and exquisite carvings, inspired by the palace of the Elizabethan era.

CN Tower

The CN Tower is a symbol of Toronto and a must-see attraction for tourists visiting Toronto. From top to bottom, it consists of four parts: the base, the observation deck, the "sky canopy" and the antenna tower. The most unique feature of the CN Tower is the glass floor built on the observation deck. This fan-shaped glass floor is 342 meters high, which makes almost every tourist who tries to step on this floor eager to try and challenge themselves with an "adventurous" mood.

Ripley's Aquarium of Canada

Ripley's Aquarium of Canada is located in downtown Toronto, Canada, just southeast of the famous CN Tower. It is the largest aquarium in Canada. There are more than 16,000 marine creatures here, and it features a 96-meter-long moving passage, located in a transparent sightseeing tunnel. Above you are sharks, large rays and their lagoons. Visitors will be inspired to care for and protect the precious water world while having fun.

Toronto's Chinatown

Since 1878, Toronto's Chinatown has been gradually formed by overseas Chinese from Singapore, Vietnam and other places. At present, there are many Chinese restaurants, shops, vegetable and fruit markets, massage centers, etc., and the decoration and style are quite Chinese. Every Spring Festival is a very lively time in Chinatown. The characteristic dragon dance parade is carried out with the accompaniment of gongs and drums, which is very lively. Montréal City Hall

Montreal's City Hall, located north of Place Jacques Cartier in Old Montreal, was built in 1878 in the then-popular French Second Empire style. In 1922, the original building was largely destroyed by fire, prompting architect Louis Parant to rebuild it. The structure employed cutting-edge steel structures of the time. To preserve the original style, the building was modeled after the Tours City Hall in France. The roof design incorporated the then-popular Neo[1]Decorative style, and the original slate roofing was replaced with a copper roof. Bearing the hallmarks of its architectural history, the building was designated a Canadian Landmark in 1984.

Old Montreal

Old Montreal refers to the Old Port on the north bank of the St. Lawrence River and the surrounding urban area. It is the oldest neighborhood in Montreal. Revealing a strong European flavor, Old Montreal is a must-see attraction for tourists. The beautiful marble columns and walls in the hall show her low key and gorgeous beauty. The library has a rich collection of 16.47 million books, periodicals, manuscripts, pictures, etc. The library with a classical atmosphere is also a frequent guest in film and television works. "Night at the Museum", "The Day After Tomorrow", "Spider-Man", "Detective Chinatown" and other films have been filmed here.

Bryant Park

Bryant Park is a beloved, year-round New York City destination. Known as Manhattan's Town Square, the park is famous for its lush seasonal gardens, free activities, world class restrooms, and al fresco dining. Located adjacent to the New York Public Library and surrounded by iconic skyscrapers, Bryant Park is visited by more than 12 million people each year and is one of the busiest public spaces in the world.

Blue Bottle Coffee

The unique Blue Bottle Coffee was created by James Freeman, and the first Blue Bottle Coffee in New York was born opposite Bryant Park in 2010. Everything in the coffee shop is in order, quiet, simple and precise. Freeman's perfect way must give everyone a perfect experience.

Central Park

Central Park is the back garden of New York citizens. The park is beautiful in all seasons: bright red and green in spring, bright sunshine in summer, fiery red maple leaves in autumn, and silvery white and bleak in winter. Both local residents and tourists from all over the world are deeply attracted by this paradise among high-rise buildings. The park looks natural, but its landscape is actually carefully created: there are several artificial lakes, long walking trails, two skating rinks, a wildlife sanctuary, many lawns and children's playgrounds. It is also a well-known urban park in New York. From "Spider-Man" to "The Avengers", Central Park has frequently appeared in Marvel movies.

"Spider-Man" and "King Kong" have also taken scenes here.

"Down Under Manhattan Bridge Overpass" in DUMBO, Brooklyn

Located on the East River in New York, DUMBO is now a vibrant artistic district. Brooklyn Park along the riverbank offers a great view of the New York downtown skyline and the Brooklyn and Manhattan Bridges. The carefully

preserved cobblestone roads, red brick walls, and the popular carousel make this place full of charm.

Afternoon

Little Island

Officially opening to the public free of charge in 2021, the floating park has become a must-see for New York City influencers since its opening. Its unique and refreshing design supports the park, which floats above the Hudson River, by 132 concrete "tulips" of varying heights, forming 2.4 acres of hills and winding paths. The entire island is home to approximately 400 different species of trees, shrubs, ground covers, and perennials, including at least 100 different tree species adapted to the New York climate. Each corner of the island represents a different microclimate, depending on the topography, sunlight, and wind conditions.

Chelsea Market

Chelsea Market was originally converted from an abandoned factory. It is an indoor market that combines a food court and retro design shops. It is one of the most popular markets in New York. There are many novel and interesting gift shops here, which are very suitable for buying souvenirs. "Going to Chelsea Market to eat lobster once" has become an important stop on the must-eat list of many foodies when they come to New York! In addition to seafood from all over the world, Australian pies, French desserts, Japanese sushi and Italian ice cream can all be found in the dazzling market.

The High Line

The High Line is a 1.45-mile-long elevated linear park, greenway and rail trail created on a former New York Central Railroad spur on the west side of Manhattan.
