Voyage to the Falls Boat Tour

The Niagara Falls boat is always the most famous way to have fun at Niagara Falls. Put on a thin red raincoat, take the white double-decker cruise ship, and the most exciting waterfall trip will begin. The Niagara Falls boat, which looks quite historic but very sturdy, will bravely sail all the way from the river bank to the waterfall and enter the horseshoe-shaped center circle of the waterfall. The abundant river water rushes towards you like a thousand horses galloping. Suddenly, the strangers on the boat seem to become the same boat. In the hazy water, you can personally feel the momentum and power of the waterfall. After leaving the storm circle, the cruise ship is like a small boat that has returned from a disaster, swaying towards the American Falls. When the weather is clear, the sunlight and water vapor interweave to form a long and beautiful rainbow, projected in front of the veritable "Rainbow Bridge".

or

Journey Behind the Falls

This is one of Niagara's oldest tourist hotspots. Take the elevator down 125 feet and through a short tunnel you will reach two outdoor observation decks and two entrances directly behind the falls. Walk to the upper and lower observation decks to experience the magic of Horseshoe Falls from directly below the falls. You will experience the spectacular sight of one-fifth of the world's fresh water rushing into the basin below. The height at the foot of the observation deck may make you "wet" or amazed, but don't forget that after all this, one-fifth of the world's fresh water, Niagara Falls, a must-see in a lifetime, will appear before your eyes!

Skylon Tower

The Skylon Tower allows visitors to get a better view of Niagara Falls. It is the closest tower to the Horseshoe Falls. It is over 100 meters high. There are theaters and game venues in the tower, and the top floor is a revolving restaurant. You will have the opportunity to enjoy a meal in the famous 360-degree revolving restaurant, or enjoy a more family-friendly casual dining in the Summit Suite buffet restaurant in the tower. The beautiful scenery is in full view. Whether it is a romantic meal for two or a family vacation, you can enjoy the luxurious and superior dining environment and world-class culinary cuisine! This fan-shaped glass floor is 342 meters high, which makes almost every tourist who tries to step on this floor eager to try and challenge themselves with an "adventurous" mood.

Ripley's Aquarium of Canada

Ripley's Aquarium of Canada is located in downtown Toronto, Canada, just southeast of the famous CN Tower. It is the largest aquarium in Canada. To preserve the original style, the building was modeled after the Tours City Hall in France. The roof design incorporated the then-popular Neo[1]Decorative style, and the original slate roofing was replaced with a copper roof. Bearing the hallmarks of its architectural history, the building was designated a Canadian Landmark in 1984.

One World Trade Center, also known as the "Freedom Tower," stands on the site of the original World Trade Center, which collapsed during the September 11 attacks. At 1,776 feet, One World Trade Center is the tallest

building in the United States and the third tallest in the world. This height commemorates the signing of the Declaration of Independence in 1776. Upon arrival, guests are greeted by a large video board featuring welcome messages in various languages, and their hometowns are highlighted on a dynamically generated world map. "Voices" offers a unique experience, where the story of the people who built the building recounts their experiences, while "Foundations" provides an up-close look at the bedrock on which the building stands. From the Global Welcome Center to the guest elevators featuring virtual time-lapse, to the breathtaking video displays, and finally to the Discovery Level with its 360-degree views, every detail is a welcome addition to this experience.

Liberty Cruise

Take the Statue of Liberty cruise around the island to start a one-hour tour of the Hudson River. On the way, you will see the Manhattan skyline and the scenery on both sides of the Hudson River, and overlook the Empire State Building and the World Trade Center. The cruise slowly passes by the Statue of Liberty, and you can clearly see the Statue of Liberty wearing a radiant crown, holding the torch of freedom, and holding the Declaration of Independence in her hand. It is magnificent and eye-catching, symbolizing the lofty ideals of the American people for freedom and their yearning and pursuit for a better life.
