## Day 3

### West Rim 1-Day Tour

#### **Itinerary:**

**Las Vegas** → **West Rim** (Mandatory, 3 hours, you can participate in a helicopter tour or West Rim Skywalk for optional) → **Hoover Dam** (30 mins) → **Las Vegas**

\*According to Hoover Dam security regulations, **all vehicles and visitors entering the scenic area are prohibited from carrying any luggage other than small personal bags (including but not limited to suitcases, oversized backpacks, etc.)**. Afternoon

#### **West Rim**

The West Rim is the western end of the Colorado Canyon. It is a protected area of the Hualapai Indian Tribe. It was developed by investors and is not managed by the Grand Canyon National Park. It is within a three-hour one-way drive from Las Vegas. A U-shaped glass corridor, known as Skywalk, was also built here for everyone to feel the height and excitement of the canyon.

#### **Hoover Dam**

The Hoover Dam was constructed during the Great Depression from 1931 to 1936. Upon its completion, it was the world's largest hydroelectric power station and concrete structure at the time! The purpose of the Hoover Dam is

to provide hydroelectric power, water storage, irrigation, and flood control from the Colorado River. It will leave you in shock with just how powerful it is and how people were able to construct the dam without the usage of the technology that we have today.

### **Coca-Cola Store Las Vegas**

There are only two Coca-Cola theme stores in the world, satisfying all your fantasies about Coca-Cola! The main entrance of the theme store is a four-story-high classic Coca-Cola bottle. The store is full of various products, from toys, stationery, aprons to clothing, table lamps, accessories, all of which are printed with the "Coca-Cola" trademark. ### **Seven Magic Mountains**

Across the desert south of Las Vegas, Nevada, rises a large, colorful anomaly. Seven colossal stone forms defy gravity with their teetering formations. Mediating between geological formations and abstract compositions, Rondinone's Seven Magic Mountains consists of locally sourced limestone boulders stacked vertically in groups ranging between three and six. Each stone boasts a different fluorescent color, and each individual totem stands between thirty and thirty-five feet high. The artwork extends Rondinone's long-running interest in natural phenomena and their reformulation in art.
