## Las Vegas Night View Tour

When night falls and the lights come on, the gambling city is a sea of neon lights and a colorful world of light and shadow. The electricity consumption of the five-kilometer-long Las Vegas Strip in one night can supply a city of 500,000 people with electricity for a year. The architecture here is a fusion of the best from all over the world. It is a well-deserved miracle of human engineering and the city with the most American characteristics!

## Day 3

### Las Vegas - Vehicle - Bryce

---

Morning Breakfast

**Breakfast Included**

All day

Today we will experience the ever-changing American West. The first stop is Zion National Park. Zion National Park is a beautiful sight, with beautiful mountains and clear waters. Then we will go to Bryce Canyon National Park. Bryce is more like a huge open-air arena than a canyon. The towering brown rocks are stacked up like stone figurines guarding the world. Stay overnight in Bryce.

**Itinerary:**

**Las Vegas → Zion National Park** (Mandatory, 45 mins) → **Checkerboard Mesa** (25 mins) → **Bryce Canyon National Park** (Mandatory, 60 mins) → **Bryce**

Morning

**Zion National Park**

A dream destination for hikers and photographers, Zion National Park may be located in the desert, but its terrain is anything but barren. Formed over millions of years of erosion, the park's myriad rock formations, numerous wilderness trails, and unique wildlife beckon visitors seeking solitude and inspiration. The park's many canyons, animal communities, and cultural sites are perfect for exploring in any season, but spring and fall are when the weather is most pleasant and the flowers are in full bloom.

### **Bryce Canyon National Park**

Bryce Canyon National Park, located in southwestern Utah, is not a true canyon, despite its name. Instead, it forms a vast natural amphitheater formed by erosion along the eastern face of the Ponsagant Plateau. Its unique geological formations, known as rock pillars, are formed by wind, river water, and ice erosion, along with sedimentary rocks from lakebeds. The red, orange, and white rocks within these formations create a unique natural landscape, earning it the nickname "Palace of Natural Stone Figurines."

### **Canyonlands National Park - Vehicle - Arches National Park**

---

Morning Breakfast

**Breakfast Included**

All day

Today we will set off to visit Canyonlands National Park. This place is like an island suspended in the sky, and the scenery is extremely spectacular! After reluctantly leaving Canyonlands National Park, we will go to Arches National Park. As the world's largest concentration of natural sandstone arches, Arches National Park covers an area of about 309 square kilometers and has more than 2,000 natural rock arches. The arches that we see today have withstood thousands of years of wind and rain erosion in various strange postures, and still stand proudly on this salt layer, which is breathtaking.

### **Canyonlands National Park**

Canyonlands National Park is an American national park located in southeastern Utah near the town of Moab. The park preserves a colorful landscape eroded into numerous canyons, mesas, and buttes by the Colorado River, the Green River, and their respective tributaries. While these areas share a primitive desert atmosphere, each retains its own character. The Island in the Sky mesa rests on sheer sandstone cliffs towering over 1,000 feet (304 m) above the surrounding terrain. Every overlook offers a different perspective on Canyonlands' spectacular landscape. Island in the Sky is the easiest area of Canyonlands to visit in a short period of time, offering many pullouts with spectacular views along the paved scenic drive.

### **Arches National Park**

Arches National Park is located near the town of Moab in Utah, USA. It covers an area of 309 square kilometers and preserves more than 2,000 natural rock arches. About 300 million years ago, this salt layer was an ocean. Millions of years after the sea disappeared, the salt layer was covered by air and water debris, and squeezed into rock with other debris. Later, after the crust uplifted and natural weathering, it became the arches of today. The park not only has arches, but also numerous large and small spires, pedestals, balancing stones and other unique geological features; all the stones have textures with very strong color contrasts.

**Breakfast Included**

All day

Friends who are interested in western blockbusters are in luck. Today we will go to Monument Valley. Monument Valley frequently appears in movies and is a symbol of the original American West. The cross-country long-distance race in "Forrest Gump" ends here. Then go to Horseshoe Bend, a famous photography spot selected by American National Geographic Magazine. The river turns 360 degrees in the reddish-brown canyon, cutting out a horseshoe[1]shaped canyon, which is why Horseshoe Bend got its name. Finally, we will visit the peculiar slit cave, the Lower Antelope Canyon, one of the top ten photography spots in the world. The rock walls of the cave are a perfect wave shape that combines the erosion of wind and torrents for thousands of years. It is an abstract painting of nature. The cave has always been a pure place for Navajo Indians to sit and think deeply. They believe that they can listen to the voice of God here. Stay overnight in Tuba, an Indian reservation.

**Itinerary:**

**Blanding** → **Monument Valley** (Mandatory, 120 mins, optional for visit by Jeep) → **Horseshoe Bend** (Mandatory, 75 mins) → **Antelope Canyon** (Optional, 120 mins) → **Tuba City**

**Kindly Reminder:**

1. Lower Antelope Canyon will be closed for maintenance during 01/12/2026-01/18/2026. Affected by this, the original itinerary during this period will be adjusted to: Antelope Canyon X (Optional, 120 mins).
2. To ensure children's safety, Antelope Canyon X explicitly stipulates: When children aged 0-8 visit, they must be accompanied by a guardian with a self-provided safety seat. Children who fail to bring a safety seat as required will not be allowed to enter. Thank you for your understanding.

**Monument Valley**

Monument Valley is a region of the Colorado Plateau characterized by a cluster of vast sandstone buttes, the largest reaching 1,000 ft above the valley floor. It is located on the Arizona–Utah state line, near the Four Corners area. Monument Valley has been featured in many forms of media since the 1930s. Director John Ford used the location for a number of his best-known films and thus, in the words of critic Keith Phipps, "its five square miles [13 square kilometers] have defined what decades of moviegoers think of when they imagine the American West."

### **Horseshoe Bend**

Horseshoe Bend – One of the top ten best photography spots in the United States selected by National Geographic Magazine! The dense aquatic plants on the Colorado River bed make the river water appear fluorescent green in the sun. The river turns 360 degrees in the reddish-brown canyon here, cutting out a horseshoe-shaped canyon, hence the name Horseshoe Bend. Standing on the edge of the cliff, you will be intoxicated by the breathtaking beauty of the blue water, blue sky and red rocks.

Afternoon

### **Lower Antelope Canyon**

The Lower Antelope Canyon is located in the north of Arizona, USA. It is formed by soft sandstone after millions of years of various erosion forces. Flash floods often flow into the canyon during the monsoon season. Due to the sudden increase in rainfall, the flow rate of the flash flood is quite fast. In addition, the narrow channel narrows the river channel, so the vertical erosion force is relatively large, forming the corridor at the bottom of the Lower Antelope Canyon and the hard and smooth edges on the valley wall that look like flowing water. There is no artificial lighting in the Lower Antelope Canyon. All visible light comes from the cracks at the top of the canyon. These lights are repeatedly refracted by the rock texture and enter the valley bottom, producing a dreamy and irregular color change. These colors are from deep to light, colorful and beautiful.

Morning Breakfast

**Breakfast Included**

All day

In the morning, we will drive to the Grand Canyon National Park, which is known as the first of the seven natural wonders of the world, to appreciate the magic of the Creator. Here, every passerby is a photographer, and every photo is a landscape painting. You can take a helicopter at your own expense to overlook the Grand Canyon from the air. After leaving the Grand Canyon Park, we will drive past the famous Hoover Dam and arrive at the world's gambling and entertainment capital - Las Vegas! In the evening, you can follow the experienced driver guide at your own expense to participate in the night tour, or enjoy the world's highest level of singing, dancing and magic shows!

**Itinerary:**

**Grand Canyon National Park**

Grand Canyon National Park, located in northwestern Arizona, is the 15th site in the United States to have been named as a national park. The park's central feature is the Grand Canyon, a gorge of the Colorado River, which is often considered one of the Wonders of the World. The park, which covers 1,217,262 acres of unincorporated area in Coconino and Mohave counties, has received more than six million recreational visitors in 2017, which is the second highest count of visits in all American national parks after the Great Smoky Mountains National Park. The Grand Canyon was designated a World Heritage Site by UNESCO in 1979.

**Grand Canyon South Rim**

The South Canyon, also known as the South Rim of the Grand Canyon, lies in the middle of the Grand Canyon. Its rugged and majestic terrain, with its bottomless canyon, makes it the largest of its kind. The park is well-developed and well-developed, making it particularly suitable for road trips. It lacks any commercial facilities, and nearly every viewpoint has been preserved to its original state. The South Canyon's vast, magnificent landscape and perfect recreational environment leave visitors feeling deeply moved and reluctant to leave, gazing at this unparalleled masterpiece of nature.
