Tour introduction

Day 1

Reykjavík

All day

Welcome to Iceland! Today you will arrive by plane in Reykjavik, the capital of Iceland. We will visit the Sun Voyager in the shape of an ancient Viking ship, the iconic building of Reykjavík Hallgrímskirkja, the latest and largest comprehensive concert hall in Iceland, the Harpa Concert Hall, and the Lake Tjörnin. Finally, we will also visit the Pearl known as Reykjavik's landmark building.

Itinerary:

Pick up from Reykjavík → **Hallgrímskirkja** (30 mins) → **Sun Voyager** (30 mins) → **Harpa** (30 mins) → **Tjörnin** (30 mins) → **Perlan** (Outside visit, 30 mins) → **Sky Lagoon** (optional, 120 mins, please bring a swimsuit or bathrobe, patients with heart disease and high blood pressure are not commended to enjoy a hot spring)

Kindly Reminder: The age limit for Sky Lagoon is 12 years old and above. Children under 12 years old are not allowed to enter.

All day

Hallgrímskirkja

Hallgrímskirkja is located on the hill in the center of Reykjavik. It is named after the famous Icelandic writer Hallgrímís and commemorates his great contribution to the Icelandic literature. The church was built in 1930 and is a landmark of Reykjavik. The highlighted characteristic of the church are the pillars of volcanic rock which demonstrate the volcanic terrain of Iceland.

Sun Voyager

The Sun Voyage is a pirate ship-skeleton sculpture and is located at about 600 meters west of the Harpa Concert Hall and Conference Center. The Sun Voyager is described as a dreamboat, or an ode to the Sun. Here, you can enjoy the peaceful water surfaces, the snow-capped mountains in the distance and the magnificent sunset scenery in the evening.

Harpa

Harpa is located at the junction of land and sea in Reykjavik. It is the newest and largest integrated concert hall and conference center in Iceland. It holds a capacity of 1,800 people. Harpa was designed by the Danish firm in co-operation with Danish-Icelandic artist. The building features a distinctive colored glass facade inspired by the

basalt landscape of Iceland. The structure consists of a steel framework clad with geometric shaped glass panels of different colors.

Tjörnin

Tjörnin is a small, prominent lake located in central Reykjavik. It is a natural habitat for ducks, seagulls, swans, and other wild animals that are often seen on the lake year-round.

Perlan

Perlan is a museum and rotating glass dome that stands on top of Öskjuhlíð Hill in Reykjavík. Perlan is one of the capital's most distinctive landmarks and is surrounded by a forest. The site is built on top of six water tanks that together store 24 million liters of Reykjavík's hot water.

Sky Lagoon

Discover the world-famous geothermal hot spring at Sky Lagoon!

Day 2

Reykjavík - Vehicle - Golden Circle Route - Vehicle - Vik

All day

Join us for a day of adventure as we travel to visit Þingvellir National Park, Gullfoss and Geysir! After dinner, we will set off to hunt on the Aurora SAFARI. Our professional outdoor guides will keep track of the latest weather conditions at all times to ensure the safety of the tour. If weather conditions are poor, please be very understanding and flexible with our guides in ensuring that they select the best observation locations for viewing the aurora.

Itinerary:

Reykjavík → Þingvellir National Park (60 mins) → Gullfoss (60 mins) → Geysir (30 mins) → Vik → Aurora SAFARI (45 mins)

Kindly Reminder:

1. When hunting the aurora outdoors, please wear warm outdoor clothing and other accessories along with proper shoes. Please be sure to have snowshoes prepared. If you want to record the beautiful northern lights, please bring a professional camera.

Aurora SAFARI's secret recipe: Aurora SAFARI's secret recipe: The Aurora viewing itself depends on the current

weather conditions and clear visibility. Please be understanding that if there are any forces or any objective factors such as any inclement weather conditions or changes, the itinerary will be adjusted accordingly.

2. The Northern Lights are a natural phenomenon whose appearance and visibility are dictated by weather and other natural conditions. Thus, there is a high possibility but there is no 100% guarantee that you will see them.

All day

Pingvellir National Park

Pingvellir is now a national park in the municipality of Bláskógabyggð located in southwestern Iceland. It is approximately located 40 km (25 miles) northeast of Iceland's capital, Reykjavík. Pingvellir is a site of historical, cultural, and geological significance! It is also one of the most popular tourist destinations in all of Iceland. The park was later expanded to protect the diverse and natural phenomena in the surrounding areas and was designated as a World Heritage Site as of 2004.

Gullfoss

Gullfoss is one of Iceland's most iconic and beloved waterfalls! It can be found in the Hvítá river canyon in Southwest Iceland. The water in the Hvítá river travels from the glacier Langjökull, before cascading 32 meters (105 feet) down Gullfoss. It demonstrates and displays a dramatic force of nature's raw power.

Geysir

Geysir is a famous hot spring in the geothermal area of Haukadalur Valley! It is located in south-west Iceland. Alongside Pingvellir National Park lies the mighty Gullfoss waterfall Geysir.

Day 3

Vík - Vehicle - Jökulsárlón - Vehicle - Vík

All day

Today will be another amazing day as we head over to the second largest deep lake in Iceland. It is known as the very famous Jökulsárlón lake. Shortly after, we will arrive to Iceland to experience the Blue Ice Cave adventure tour in the winter. Following, we will visit Diamond Beach and Black Sand Beach! After dinner, we will set off to hunt on the Aurora SAFARI. Our professional outdoor guides will keep track of the latest weather conditions at all times to ensure the safety of the tour. If weather conditions are poor, please be very understanding and flexible with our guides in ensuring that they select the best observation locations.

Itinerary:

Vík → **Jökulsárlón** (30 mins) → **Blue Ice Cave** (Optional, 3 hours) → **Diamond Beach** (30 mins) → **Black Sand Beach** (60 mins) → **Aurora SAFARI** (45 mins)

Kindly Reminder:

1. Age restriction: For safety reasons, children under 8 years old are not recommended to participate in the Blue Ice Cave tour.
2. When hunting the aurora outdoors, please wear warm outdoor clothing and other accessories and proper shoes. Please be sure to have snowshoes prepared. If you want to record the beautiful northern lights, please prepare a professional camera.
Aurora SAFARI's secret recipe: The Aurora viewing itself depends on the current weather conditions and clear visibility. Please be understanding that if there are any forces or any objective factors such as any inclement weather conditions or changes, the itinerary will be adjusted accordingly.
3. The Northern Lights are a natural phenomenon whose appearance and visibility are dictated by weather and other natural conditions. Thus, there is a high possibility but there is no 100% guarantee that you will see them.

Morning

Jökulsárlón

Jökulsárlón is Iceland's most famous glacier lagoon! As a glacier lagoon, Jökulsárlón is a lake that is filled with the meltwater from an outlet glacier. Breiðamerkurjökull, is known as a tongue of Europe's largest ice cap, Vatnajökull. Jökulsárlón is one of the country's most popular and beautiful attractions that awaits for you.

Afternoon

Blue Ice Cave

Blue Ice cave is one of the greatest places you will ever visit in your life! It is such a majestic and magical place to visit. If you're looking for a perfect ice glacier to visit, today is your day!

Diamond Beach

Diamond Beach is a strip of black sand that belongs to the greater Breiðamerkursandur glacial plain. It is located by Jökulsárlón glacier lagoon on the South Coast of Iceland. At Diamond Beach, the icebergs fill the Jökulsárlón glacier lagoon and wash up on the shore creating a stark contrast with the volcanic black sand. This beautiful display makes it a favorite destination for photographers and nature-lovers!

Reynisfjara Black Sand Beach

Reynisfjara is a world-famous black-sand beach found on the South Coast of Iceland. It is located just beside the small fishing village of Vík í Mýrdal and is absolutely incredible! With its enormous basalt stacks, roaring Atlantic

waves, and stunning panoramas, Reynisfjara is widely considered to be the most beautiful examples of Iceland's black sand beaches. In 1991, National Geographic voted Reynisfjara as one of the Top 10 non-tropical beaches to visit on the planet.

Day 4

Vík - Vehicle - Reykjavík

All day

Today we will go to visit the beautiful Seljalandsfoss and Skógafoss! These are two scenic spectacular locations to visit and are definitely worth the visit! Then, we will go back to Reykjavík to visit the world-known Blue Lagoon to enjoy a hot spring!

Itinerary:

Vík → Skogarfoss (30 mins) → **Seljalandsfoss** (30 mins) → **Reykjavík** → **Blue Lagoon Hot Spring** (Optional, 120 mins)

Morning

Skógafoss

Skógafoss is one of Iceland's largest, powerful, and most beautiful waterfalls! It offers an astounding width of 25 meters (82 feet) and a drop of 60 meters (197 feet). Due to the amount of spray, at least one rainbow is present at any time that the sun emerges from behind the clouds. The land underneath the waterfall, however, is very flat which allows visitors to walk right up to the wall of water. Skógafoss can also be viewed from atop at an observational platform located above the cascade.

Seljalandsfoss

Seljalandsfoss is a waterfall that can be fully encircled and situated on the South Coast of Iceland. It has a significant drop of 60 meters (200 feet). Due to the waterfall's close proximity to Ring Road and its impressive natural features, it is one of the country's most famous and visited falls! The most distinguishing feature of Seljalandsfoss is the special pathway that stretches around it. It is extremely majestic and picturesque and makes Seljalandsfoss one of the most photographed locations in all of Iceland.

Afternoon

Blue Lagoon

The Blue Lagoon is a geothermal spa located in southwestern Iceland. The water's milky blue shade is due to its high silica content. The silica forms soft white mud on the bottom of the lake which people rub onto themselves. The water is also rich in salts and algae. The water's temperature in the bathing and swimming area of the lagoon averages at around 37–39 °C (99–102 °F).
