Night

### Seattle Night Tour

We will firstly travel to Seattle Great Wheel, which is a giant Ferris wheel at Pier 57 on Elliott Bay in Seattle, Washington. With an overall height of 175 feet, it was the tallest Ferris wheel on the West Coast of the United States when it opened on June 29, 2012. Next stop is Kerry Park where visitors can have a panoramic city view of the entire Seattle. It is a perfect location for photography and if you see Space Needle with a backdrop of Mount Rainier in any marketing photos of Seattle, this is exactly where to take the pictures. In addition, the park was one of the many stops

on the finale episode of the third season of Amazing Race. At the same time, we will visit Starbucks Reserve Roastery and Tasting Room. It is more like a modern coffee factory. You will witness the machines roasting the freshest coffee beans and grinding the most concentrated coffee powder. You can also open your mind up, order a cup of the most creative coffee, or enjoy the latest Starbucks products. Here you can also see the whole process of unsealing and baking the original coffee beans.

### Seattle City Tour

---

All day

Welcome to Washington state's largest city, Seattle, home to one of the greatest ecological diversities seen in the country. Here on this tour, you are going to find the most amazing sights that this city has to offer! Seattle is a seaport city in Washington State! Many people believe it may be like the classical movie "Sleepless in Seattle;" but it is far from it! Explore a technological landmark known as the Space Needle or visit the very first original Starbucks in the world!

#### Itinerary:

**Pike Place Market** (45 mins, where first Starbucks located) → **Sky View Observatory at Columbia Center** (Optional, 50 mins) → **Space Needle** (Outside View) → **MoPOP** (Optional, 60 mins) → **Chihuly Glass Garden** (Optional, 60 mins) → **Pioneer Square** (Passing by) → **The Museum of Flight** (Optional, 90 mins)

Morning

#### **Sky View Observatory at Columbia Center**

Sky View Observatory at Columbia Center is one of Seattle's newest and most remarkable landmarks! Take the elevator up to the sightseeing floor and enjoy a full 360-degree panoramic view of downtown Seattle! Here you can sight the Ferris Wheel, Puget Sound, Space Needle, Microsoft, Mt. Rainier and so much more. You can also experience the world's most advanced 360-degree full-screen tower elevator experience to learn all about the establishment of the city in Seattle!

#### **Pike Place Market**

One of the oldest farmers' markets in the United States, the Pike Place Market first opened in 1909-- more than 100 years ago. The still-thriving market overlooking Elliot Bay sees more than 10 million visitors every year.

#### **Space Needle**

This icon of the American Northwest has adorned everything for movie screens to postage stamps. Built in 1961 for the 1962 World's Fair, the Space Needle features outdoor elevators and a rotating restaurant at its top.

### **MoPOP**

The museum is founded by Microsoft co-founder Paul Allen and designed by Avant grade designer Frank Gehryhe. The MoPOP is located at the foot of the Space Needle. Its colorful appearance is made by three thousand pieces of metal means to present the strength of music and the beauty of flowing.

**Day 4**

**Missoula - Vehicle - Yellowstone National Park**

All day

Yellowstone National Park spans an area of 3,468 square miles (8,983 square kilometers), located primarily in the U.S. state of Wyoming, although it also extends into Montana and Idaho. Yellowstone National Park is one of the most stunning Wonderlands in the world. The majority of the world's geysers are preserved here. They are the main reason the park was established in 1872 as America's first national park – an idea that spread worldwide later. Around noon, we will arrive in the Yellowstone and will show you around before go to hotel in Idaho in night.

**Itinerary:**

**Missoula → Yellowstone National Park (5 hours) → Idaho falls**

**Special Notes:**

1. In the Yellowstone National Park, we will visit: Old Faithful Geyser, The Grand Prismatic Hot Spring (60 mins), Mud Volcano Area (30 mins), Norris Geyser Basin (60 mins) and so on.

Afternoon

**Yellowstone National Park**

Yellowstone National Park, the first national park in the United States, it is a true gem that you will not want to miss out on! Yellowstone offers spectacular scenic views year-round and a chance to watch animals that migrate in and out of

the park! No matter where you are in the park you will get to see these some spectacular animals! Here you will find bears, wolves, moose, elk, bison and more!

### **Old Faithful Geyser**

Old Faithful is a cone geyser in the Upper Geyser Basin of Yellowstone National Park. It is one of the park's most well-known natural features and is famous for its predictability. It generally erupts every 91 minutes.

### **The Grand Prismatic Hot Spring**

The Grand Prismatic Spring, with approximately 370 feet (110 m) in diameter and is 160 feet (50 m) deep, which discharges an estimated 560 US gallons (2,100 L) of 160 °F (70 °C) water per minute. It is the largest hot spring in the United States, and the third largest in the world. The vivid colors in the spring are the result of microbial mats around the edges of the mineral-rich water. The mats produce colors ranging from green to red; the amount of color in the microbial mats depends on the ratio of chlorophyll to carotenoids and on the temperature gradient in the runoff. In the summer, the mats tend to be orange and red, whereas in the winter the mats are usually dark green. The center of the pool is sterile due to extreme heat.

### **Mud Volcano Area**

The Mud Volcano blew itself apart in the early 20th century, but visitors can still see the impressive crater and other geothermal features in the surrounding area, such as the Mud Cauldron, Black Dragon's Caldron, and Dragon's Mouth Spring.

### **Yellowstone Norris Geyser Basin**

Norris Geyser Basin, named after an early Yellow-stone Superintendent, may be the hottest geyser basin in Yellowstone. The stark, barren landscape of Porcelain Basin is the result of an acidic environment. Due to the hostile condition plants, algae and bacteria have difficulty in establishing themselves. Instead the basin derives its colors from mineral oxides, in spectrums of pink, red, orange (iron oxides) and yellow (sulfur and iron sulfates). The largest geyser in the world is located here. Steamboat Geyser has long periods of dormancy, but when it does erupt it sends jets of water nearly 380 feet high in a spectacular display.

## **Day 5**

**Yellowstone National Park - Vehicle - Grand Teton National Park - Vehicle - Jackson**

---

All day

Today, we will continue our tour of Yellowstone National Park. Then we will arrive at Grand Teton National Park in the

northwest of Wyoming, USA. The Grand Teton is 4199 meters above sea level and is the highest peak in the Teton Mountains. There are glaciers that have survived to this day. Then go to Jackson, a famous cowboy town. There is a vast elk sanctuary near the town. The most eye-catching thing in the town is the antler park in the center, which is built with 7,500 real antlers, which is spectacular. Finally return to West Yellowstone Hotel.

#### **Itinerary:**

**Yellowstone National Park** (3 hours, stop at West Thumb Lake) → **Grand Teton National Park** (120 minutes) → **Jackson Town** → **Antlers Park** (30 mins) → **West Yellowstone**

Morning

#### **West Thumb Geyser Basin**

The West Thumb Geyser Basin is situated at the western edge of a large bay along the shores of Yellowstone Lake. This area is known as the West Thumb caldera which was formed by a volcanic eruption that took place 174,000 years ago. This bay is actually a smaller caldera within the larger Yellowstone caldera. The resulting caldera filled with water, creating the bay.

#### **Grand Teton National Park**

Grand Teton National Park is located in the Rocky Mountains, Northwest Wyoming. Grand Teton National Park is noted for its stunning mountain vistas and its shimmering alpine lakes. It is also home to a variety of abundant wildlife.

#### **Elk Antler Arches Park**

Elk Antler Arches Park has four arches and is made with thousands of elk antlers that make it so unique. It is such an amazing place to discover filled with unforgettable memories.

All day

In the west and southwest, Yellowstone is home to some 10,000 thermal features, over 500 hundred of which are geysers. Today we will visit Norris Geyser Basin. Norris Geyser Basin is the hottest and most changeable thermal area in Yellowstone. We will deeply explore many of the features: Rainbow Colors, hissing steam, and pungent odors combine to create an experience unique in Yellowstone. After that, we will return to Missoula.

**Itinerary:**

**Yellowstone National Park (5 hours) → Missoula**

**Special Notes:**

1. Visit Yellowstone Park: Mammoth Hot Springs, Artist Point Spring, Yellowstone Canyon, Upper Falls, Lower Falls and other scenic spots. Please refer to the actual situation for specific visit time.

Yellowstone offers spectacular scenic views year-round and a chance to watch animals that migrate in and out of the park! No matter where you are in the park you will get to see these some spectacular animals! Here you will find bears, wolves, moose, elk, bison and more!

**Yellowstone Mammoth Hot Springs**

Originally, there were several hot springs flowing from hillside, which was dyed by the microbes in the springs, thus performing a splendid step with multiple colors. However, due to a crustal change in 2002, most of the hot springs were no longer active. After the microbes died, they turned into grayish white powder, which remains on the dried steps, reflecting the dazzling sunlight. The barren land has changed with geographic movements, and the place used to be active could suddenly be quiet, and vice versa.

**Artist Point**

Artist Point is one of the most spectacular scenic areas in the Canyon Area of the Park. The sheer walls drop 700 feet to the bottom of the canyon. Upriver the powerful Lower Falls are still in view. Downriver the canyon widens and deepens to a maximum of 1,540 feet. The canyon walls are predominantly yellow but colors of blue, red, orange and brown are also present. The colors are ever changing and especially intensified when the sunshine's after a rain.

**Grand Canyon of the Yellowstone**

This impressive gap in the earth in the first large canyon on the Yellowstone River. It is 24 miles long, and can reach a quarter-mile in depth and 3/4 a mile in width. It is gorgeously colored.

**Upper Yellowstone Falls**

Located a quarter-mile upstream of the larger Lower Falls, the Upper Yellowstone River Falls plunge 109 feet down an eroded lava cliff into the basin below. The area below the falls has been subject to heavier erosion than above.

### **Lower Yellowstone River Falls**

The Lower Falls of the Yellowstone River in Wyoming are the largest by volume in the Rocky Mountains of the western United States, and they stand more than 300 feet tall-- almost twice as high as Niagara Falls.

**Special Notes:**

1. Olympic National Park is mountainous tourist attractions. In order to ensure the proper time to visit each scenic location, we highly recommend guests to prepare lunch foods in advance.

All day

**Olympic National Park**

Olympic National Park Olympic National Park is a United States national park located in the state of Washington, of the Olympic Peninsula. The park has four basic regions: the Pacific coastline, alpine areas, the west side temperate rainforest and the forests of the drier east side. U.S. President Theodore Roosevelt originally created Mount Olympus National Monument. The Olympic Peninsula has 73 miles of coastline, keeps the original view since ice age. With a low land of rainforest in its west, a magnificent Olympic Mountains in central, and few locations here can be visited by automobile makes it the paradise for hiking. Isolated from the mainland, many of its vegetation and animals can only be found here. The Olympic National Park locates in Olympic Peninsula is one of the most highly visited National Parks along the west coast.

**Hurricane Ridge**

Located within Washington's Olympic National Park, this mountainous region is a popular destination for hiking, skiing and snowboarding. In the summer, several picnic areas open up, making this a great spot for a day-trip from nearby Seattle.

or

**Poulsbo**

Poulsbo is located in the Liberty Bay of Kitapp County, more than 100 kilometers north of Seattle. It is said that many

residents of this town are Norwegian, so people call this town Washington's Little Norway. The whole town is characterized by Scandinavian style. This place has a history of more than 100 years, and you can see various stores with historical traces: gift shop, gallery, handicraft shop, antique shop, jewelry shop, etc. The most famous ones here are handmade European chocolate, bread, coffee, etc.

### **Lake Crescent**

This deep lake in the heart of Olympic National Park holds water that is a brilliant hue of bright blue. It was formed during the last Ice Age by thousands of years of glacial activity.

### **Temperate rain forest**

Because of development, very few temperate rainforests outside of Olympic National Park exist along this stretch today. In Olympic, temperatures rarely drop below freezing or go above 80F, enabling an incredibly unique ecosystem to grow. Mosses, ferns, Douglas fir, red alders, Western hemlocks and Sitka spruce thrive in temperate rainforests, as do epiphytes, which are plants growing on other plants. Cat-tail moss and licorice ferns are two types of epiphytes you will find in Olympic.
