Tour introduction

Day 1

Salt Lake City International Airport (SLC) pick-up - Vehicle - Salt Lake City Tour

All day

Today, you will arrive at the Salt Lake City International Airport (SLC)! Here, our enthusiastic tour guides will be waiting to take you on a tour of Salt Lake City, the largest city in the Midwest. The meet-up time at the Salt Lake City International Airport (SLC) is at 2pm.

Itinerary:

Salt Lake City International Airport (SLC) pick-up at 14:00 → Utah State Capitol (45 mins) → Temple Square & Brigham Young House (60 mins) → Hotel

Afternoon

Utah State Capitol

The Utah State Capitol is the house of government for the U.S. state of Utah. The building houses the chambers and offices of the Utah State Legislature, the offices of the Governor, Lieutenant Governor, Attorney General, the State Auditor and their staffs. The capitol is the main building of the Utah State Capitol Complex, which is located on Capitol Hill, overlooking downtown Salt Lake City. The Neoclassical revival, Corinthian style building was designed by architect Richard K.A. Kletting, and built between 1912 and 1916. The building was added to the National Register of Historic Places in 1978.

Temple Square

Temple Square is a 10-acre (4.0 ha) complex, owned by The Church of Jesus Christ of Latter-day Saints (LDS Church), in the center of Salt Lake City. Contained within Temple Square are the Salt Lake Temple, Salt Lake Tabernacle, Salt Lake Assembly Hall, the Seagull Monument, and two visitors' centers. The square was designated a National Historic Landmark District in 1964, recognizing the Mormon achievement in the settlement of Utah.

Day 2

Salt Lake City - Vehicle - Yellowstone National Park

All day

Discover Yellowstone, Yellowstone is home to world's largest super volcano and over 10,000 geothermal features. Here, you can find everything you expect to see in a national park! Snow covered mountains, waterfalls, lakes, rivers, canyons, meadows, herds of buffalos, elk and the most amazing geothermal features in the world! Geysers, hot springs, fumaroles, and mud pots are the wonders that make Yellowstone truly unique. Sightsee the Grand Prismatic Spring, Fountain Paint Pots, Old Faithful Geyser, Geyser Trail, and Morning Glory.

Itinerary:

Salt Lake City → Yellowstone National Park (5 hours, we will head to visit The Grand Prismatic Spring, Old Faithful Geyser, Morning Glory Pool, Spring Path, and other attractions. The tour guide will be adjusted according to the actual situation of the day, please refer to the actual arrangement.)

A special complimentary Yellowstone game meal (fresh Yellowstone trout, high-horned venison, buffalo meat that day) will be available for you.

Afternoon

Yellowstone National Park

Yellowstone National Park, the first national park in the United States, it is a true gem that you will not want to miss out on! Yellowstone offers spectacular scenic views year-round and a chance to watch animals that migrate in and out of the park! No matter where you are in the park you will get to see these some spectacular animals! Here you will find bears, wolves, moose, elk, bison and more!

The Grand Prismatic Hot Spring

The Grand Prismatic Spring, with approximately 370 feet (110 m) in diameter and is 160 feet (50 m) deep, which discharges an estimated 560 US gallons (2,100 L) of 160 °F (70 °C) water per minute. It is the largest hot spring in the United States, and the third largest in the world. The vivid colors in the spring are the result of microbial mats around the edges of the mineral-rich water. The mats produce colors ranging from green to red; the amount of color in the microbial mats depends on the ratio of chlorophyll to carotenoids and on the temperature gradient in the runoff. In the summer, the mats tend to be orange and red, whereas in the winter the mats are usually dark green. The center of the pool is sterile due to extreme heat.

Old Faithful Geyser

Old Faithful is a cone geyser in the Upper Geyser Basin of Yellowstone National Park. It is one of the park's most well-known natural features and is famous for its predictability. It generally erupts every 91 minutes.

Day 3

Bridge Bay Marina Boat Driving Experience - Vehicle - Yellowstone National Park

All day

Let's continue to explore the beauty of Yellowstone National Park! It is located on the largest active volcanic crater in the world, with more than 10,000 geothermal phenomena, coupled with a unique biological ecological environment, you will see a canyon surrounded by clouds and mists. Today will be an unforgettable day filled with amazing memories for you to discover.

Itinerary:

Bridge Bay Marina Boat Driving Experience (2 hours, ticket included) → **Yellowstone National Park** (8 hours, we will stop at Mud Volcano, Hayden Valley, Grand Canyon of Yellowstone, Artist Point, Upper Falls, Lower Falls, Norris Geyser, Eye of the Earth, and other attractions. The arrangement of the attractions will be adjusted according to the actual situation of the day)

Special Note:

1. Due to climate reasons, there may be drift ice in Huangshi Lake in May. Considering safety issues, the Bridge Bay Marina Boat Driving Experience will be replaced by horse riding (90 mins), please understand.

All day

Bridge Bay Marina Boat Driving Experience

Enjoy a special Marina Boating driving experience. Take a ride on a self-driving boat and roam along the lake to enjoy the charm of Yellowstone Park from the water perspective.

Yellowstone National Park

Yellowstone National Park, the first national park in the United States, it is a true gem that you will not want to miss out on! Yellowstone offers spectacular scenic views year-round and a chance to watch animals that migrate in and out of the park! No matter where you are in the park you will get to see these some spectacular animals! Here you will find bears, wolves, moose, elk, bison and more!

Mud Volcano Area

The Mud Volcano blew itself apart in the early 20th century, but visitors can still see the impressive crater and other geothermal features in the surrounding area, such as the Mud Cauldron, Black Dragon's Caldron, and Dragon's Mouth Spring.

Hayden Valley

This valley, centrally located in Yellowstone National Park, is the first place to go to see wildlife in Yellowstone. As you drive along this beautiful, broad valley you are likely to see herds of bison, scattered elk (and the occasional herd), and the occasional grizzly bear. You are also likely to see waterfowl, including ducks, Canada geese and pelicans, swimming in or lounging near the Yellowstone River.

Grand Canyon of the Yellowstone

This impressive gap in the earth is the first large canyon on the Yellowstone River. It is 24 miles long, and can reach a quarter-mile in depth and 3/4 a mile in width. It is gorgeously colored.

Artist Point

Artist Point is one of the most spectacular scenic areas in the Canyon Area of the Park. The sheer walls drop 700 feet to the bottom of the canyon. Upriver the powerful Lower Falls are still in view. Downriver the canyon widens and deepens to a maximum of 1,540 feet. The canyon walls are predominantly yellow but colors of blue, red, orange and brown are also present. The colors are ever changing and especially intensified when the sunshine's after a rain.

Upper Yellowstone Falls

Located a quarter-mile upstream of the larger Lower Falls, the Upper Yellowstone River Falls plunge 109 feet down an eroded lava cliff into the basin below. The area below the falls has been subject to heavier erosion than above.

Lower Yellowstone River Falls

The Lower Falls of the Yellowstone River in Wyoming are the largest by volume in the Rocky Mountains of the western United States, and they stand more than 300 feet tall-- almost twice as high as Niagara Falls.

Yellowstone Norris Geyser Basin

Norris Geyser Basin, named after an early Yellowstone Superintendent, may be the hottest geyser basin in Yellowstone. The stark, barren landscape of Porcelain Basin is the result of an acidic environment. Due to the hostile condition plants, algae and bacteria have difficulty in establishing themselves. Instead the basin derives its colors from mineral oxides, in spectrums of pink, red, orange (iron oxides) and yellow (sulfur and iron sulfates). The largest geyser in the world is located here. Steamboat Geyser has long periods of dormancy, but when it does erupt it sends jets of water nearly 380 feet high in a spectacular display.

West Thumb Geyser Basin

The West Thumb Geyser Basin is situated at the western edge of a large bay along the shores of Yellowstone Lake. This area is known as the West Thumb caldera which was formed by a volcanic eruption that took place 174,000 years ago. This bay is actually a smaller caldera within the larger Yellowstone caldera. The resulting caldera filled with water, creating the bay.

Grand Teton National Park

Grand Teton National Park is located in the Rocky Mountains, Northwest Wyoming. Grand Teton National Park is noted for its stunning mountain vistas and its shimmering alpine lakes. It is also home to a variety of abundant wildlife.

Wild and Scenic River Raft Trip on Snake River

Drifting on the serene waters of the ten-mile-long Grand Teton, fascinated by the lush forests and flowers on both sides, it feels like you are in another world. To provide the most comfortable and safe rafting experience, a boat can only accommodate up to 12 people. We can enjoy the magnificent scenery of Grand Teton from the drift boat and take the one-of-a-kind large-scale pictures of the lake. (The river and lake are very gentle, suitable for guests over 6 years old).

Elk Antler Arches Park

Elk Antler Arches Park has four arches and is made with thousands of elk antlers that make it so unique. It is such an amazing place to discover filled with unforgettable memories.
