the young artist is revealed through the 4,251 works that make up the permanent collection. Furthermore, the Museu Picasso, opened in 1963, also reveals his deep relationship with Barcelona: an intimate, solid relationship that was shaped in his adolescence and youth, and continued until his death. The Museum is very rich in regard to work from the formative years in the life of the artist; it is practically exhaustive up to the Blue Period. The Museum also houses an important representation of works from 1917, and the series Las Meninas (1957) as well as a comprehensive print collection.
