Tour introduction

Day 1

Las Vegas - Vehicle - Zion National Park - Vehicle - Bryce Canyon National Park - Vehicle - Page

All day

Today we will leave Las Vegas for two major national parks in Utah: Bryce Canyon National Park and Zion National Park.

Itinerary:

Las Vegas → Zion National Park (45 mins) → Checkerboard Mesa (25 mins) → Bryce Canyon National Park (60 mins) → Page

All day

Zion National Park

Utah's First National Park. Follow the paths where ancient native people and pioneers walked. Gaze up at massive sandstone cliffs of cream, pink, and red that soar into the brilliant blue sky. Experience wilderness in a narrow slot canyon. Zion's unique array of plants and animals will enchant you as you absorb the rich history of the past and enjoy the excitement of present-day adventures.

Bryce Canyon National Park

Bryce Canyon National Park is an American national park located in southwestern Utah. The major feature of the park is Bryce Canyon, which despite its name, is not a canyon but a collection of giant natural amphitheaters along the eastern side of the Paunsaugunt Plateau. Bryce is distinctive due to its geological structures called hoodoos, formed by frost weathering and stream erosion of the river and lakebed sedimentary rocks. The red, orange, and white colors of the rocks provide spectacular views for park visitors.

Day 2

Page - Vehicle - Horseshoe Bend - Vehicle - Antelope Canyon - Vehicle - Las Vegas

All day

In the morning, we will be traveling to Antelope Canyon and Horseshoe Bend! Horseshoe bend is one of the world's top

ten photographic sites! Both are places that we must take you to visit!

Itinerary:

Page → Horseshoe Bend (60 mins) → Lake Powell (90 mins, you can experience kayaking at your own expense) → Antelope Canyon (Optional, 120 mins) → Las Vegas

Special note:

1. During the kayaking period from 03/20/2025 to 10/23/2025, you can experience kayaking at your own expense. During other time periods, kayaking is closed and the stay time at Lake Powell will be adjusted to 60 minutes.

All day

Horseshoe Bend

Horseshoe Bend has been featured as a landmark for Glen Canyon National Recreation Area, Grand Canyon National Park, the Cities of Page AZ, Kanab UT, St George UT, and the Navajo Nation. Boundary lines are very close in some places. About nine miles downstream is where Grand Canyon National Park truly begins. A social media darling, Horseshoe Bend has become one of the most recognized and visited places in the Glen Canyon National Recreation Area.

Lake Powell

Lake Powell is located in northern Arizona and stretches up into southern Utah. It's part of the Colorado River in Glen Canyon National Recreation Area. With nearly 2,000 miles of shoreline, endless sunshine, warm water, perfect weather, and some of the most spectacular scenery in the west, Lake Powell is the ultimate playground.

Lower Antelope Canyon

Lower Antelope Canyon is a slot canyon in the American Southwest, on Navajo Land east of Page, Arizona. Upon arrival at the Lower Antelope Canyon, you will be able to get off the truck and step into the desert and enter the amazing desert world. The tour guides will explain some geology, culture, history and insights about the place. By walking through the sandstone walls of the Lower Antelope Canyon, you will be immersed in its beauty.

Day 3

West Rim 1-Day Tour

All day

Today we will be headed to the West Rim! Next, you will have the option to take a walk on the glass bridge known as the Skywalk or take a helicopter ride through the Grand Canyon! Finally, we will drive to Las Vegas.

Itinerary:

Las Vegas → **West Rim** (3.5 hours, optional for Skywalk and Helicopter Tour) → **Hoover Dam** (30 mins) → **Las Vegas**

All day

West Rim

The West Rim is the western end of the Colorado Canyon. It is a protected area of the Hualapai Indian Tribe. It was developed by investors and is not managed by the Grand Canyon National Park. It is within a three-hour one-way drive from Las Vegas. A U-shaped glass corridor, known as Skywalk, was also built here for everyone to feel the height and excitement of the canyon.

West Rim Skywalk

Unparalleled views of one of the world's Seven Natural Wonders await you at Grand Canyon West on Skywalk. This breathtaking 10-foot wide, horseshoe-shaped glass bridge extends 70 feet out over the rim of the Grand Canyon, giving you a clear view 4,000 feet to the Canyon floor below. There's simply no thrill like stepping out on glass thousands of feet in the air.

Hoover Dam

The Hoover Dam was constructed during the Great Depression from 1931 to 1936. Upon its completion, it was the world's largest hydroelectric power station and concrete structure at the time! The purpose of the Hoover Dam is to provide hydroelectric power, water storage, irrigation, and flood control from the Colorado River. It will leave you in shock with just how powerful it is and how people were able to construct the dam without the usage of the technology that we have today.
