### Tour introduction

**Day 1** **Las Vegas - Vehicle - Grand Canyon National Park - Vehicle - Horseshoe Bend - Vehicle - Page**

---

All day

Today we will visit the most famous of the Seven World's Natural Wonders – the Grand Canyon National Park! You may have the option to take a sightseeing helicopter or airplane tour at your own expense. Following, we will visit Horseshoe Bend! The river turns a sharp 360 degrees in the canyon, cutting a horseshoe-shaped landscape, from which Horseshoe Bend is named. It is truly a beauty in its own to discover. Stay overnight in Page.

#### Itinerary:

**Las Vegas → Grand Canyon National Park East Rim & South Rim (Mandatory, 2.5 hours) → Grand Canyon South Rim Helicopter (optional) → Horseshoe Bend (Mandatory, 75 mins) → Page**

All day

#### Grand Canyon National Park

Grand Canyon National Park, located in northwestern Arizona, is the 15th site in the United States to have been named as a national park. The park's central feature is the Grand Canyon, a gorge of the Colorado River, which is often considered one of the Wonders of the World. The park, which covers 1,217,262 acres of unincorporated area in Coconino and Mohave counties, has received more than six million recreational visitors in 2017, which is the second highest count of visits in all American national parks after the Great Smoky Mountains National Park. The Grand Canyon

was designated a World Heritage Site by UNESCO in 1979.

### Horseshoe Bend

Horseshoe Bend has been featured as a landmark for Glen Canyon National Recreation Area, Grand Canyon National Park, the Cities of Page AZ, Kanab UT, St George UT, and the Navajo Nation. Boundary lines are very close in some places. About nine miles downstream is where Grand Canyon National Park truly begins. A social media darling, Horseshoe Bend has become one of the most recognized and visited places in the Glen Canyon National Recreation Area.

Night

Hotel: Hampton Inn & Suites Page - Lake Powell; similar

## Day 2

**Page - Vehicle - Antelope Canyon - Vehicle - Bryce Canyon National Park - Vehicle - Salt Lake City**

Morning Breakfast

### Breakfast Included

All day

Antelope Canyon is one of the top ten sites in all of the world for photography! It consists of the upper and lower canyons; the upper canyon is the Navajo word for "water through the rocks" and lower canyon means "arch-shaped spiral rock." In here, visitors are always amazed by this wavy canyon rock formation! It is a true natural beauty! Then we will arrive at the Glen Canyon Dam. Here, you will explore the perfect combination of human engineering and nature. Following, We will then explore the beauty of Bryce Canyon National Park and then drive to Salt Lake City to stay overnight.

### Itinerary:

**Page → Antelope Canyon** (Optional, 120 mins) → **Glen Canyon Dam** (Mandatory, 30 mins) → **Lake Powell** (Pass by) → **Bryce Canyon National Park** (Mandatory, 60 mins) → **Salt Lake City**

All day

### Lower Antelope Canyon

Lower Antelope Canyon is a slot canyon in the American Southwest, on Navajo Land east of Page, Arizona. Upon arrival at the Lower Antelope Canyon, you will be able to get off the truck and step into the desert and enter the amazing desert world. The tour guides will explain some geology, culture, history and insights about the place. By walking

through the sandstone walls of the Lower Antelope Canyon, you will be immersed in its beauty.

### **Glen Canyon Dam**

The Glen Canyon Dam is located in the arid southwestern United States, and the mission of the dam is to store water resources for this particularly arid part of the United States. It is 216 meters high, and the arched top is 470 meters long. It also meets the needs of communities in three states. This dam uses the natural conditions of the Glen Canyon to build dams on both sides of the canyon to intercept the Colorado River for hydropower generation and water regulation. It is one of the most spectacular dams in the world, and one of the most magnificent and complex buildings created by humans, which is breathtaking.

### **Lake Powell**

Lake Powell is located in northern Arizona and stretches up into southern Utah. It's part of the Colorado River in Glen Canyon National Recreation Area. With nearly 2,000 miles of shoreline, endless sunshine, warm water, perfect weather, and some of the most spectacular scenery in the west, Lake Powell is the ultimate playground.

### **Bryce Canyon National Park**

Bryce Canyon National Park is an American national park located in southwestern Utah. The major feature of the park is Bryce Canyon, which despite its name, is not a canyon but a collection of giant natural amphitheaters along the eastern side of the Paunsaugunt Plateau. Bryce is distinctive due to its geological structures called hoodoos, formed by frost weathering and stream erosion of the river and lakebed sedimentary rocks. The red, orange, and white colors of the rocks provide spectacular views for park visitors.

Night

Hotel: Radisson Hotel Salt Lake City Airport; similar

## **Day 3**

**Salt Lake City** - Vehicle - **Grand Teton National Park** - Vehicle - **Yellowstone National Park**

---

Morning Breakfast

**Breakfast Included**

All day

Today we will drive to Jackson, a famous cowboy town as well as a world's renowned vacation destination. Be sure to visit the Jackson Town Square with Elk Antler Arches which is located in the center of Jackson. Then we will travel along the Snake River to Grand Teton National Park, where we will see this natural wonder's amazing view. Finally, we will arrive at Yellowstone, which is home to world's largest super volcano and over 10,000 geothermal features. Here you

can find everything you expect to see in a national park! Snow covered mountains, waterfalls, lakes, rivers, canyons, meadows, herds of buffalos, elks... and the most amazing geothermal features in the world!

#### **Itinerary:**

**Salt Lake City → Jackson → Jackson Town Square with Elk Antler Arches (60 mins) → Grand Teton National Park (Mandatory, 60 mins) → Yellowstone National Park (Mandatory, 3 hours, Head to visit West Thumb Geyser Basin, Yellowstone Lake, Old Faithful Geyser, Fountain Trail, Morning Glory and other attractions. The tour guide will be adjusted according to the actual situation of the day, please refer to the actual arrangement.) → West Yellowstone**

All day

#### **Jackson Town Square with Elk Antler Arches**

Jackson Town Square has four arches and is made with thousands of elk antlers that make it so unique. It is such an amazing place to discover filled with unforgettable memories.

#### **Grand Teton National Park**

Grand Teton National Park is located in the Rocky Mountains, Northwest Wyoming. Grand Teton National Park is noted for its stunning mountain vistas and its shimmering alpine lakes. It is also home to a variety of abundant wildlife.

#### **Yellowstone National Park**

Yellowstone National Park, the first national park in the United States, is a true gem that you will not want to miss out on! Yellowstone offers spectacular scenic views year-round and a chance to watch animals that migrate in and out of the park! No matter where you are in the park you will get to see these spectacular animals! Here you will find bears, wolves, moose, elk, bison and more!

#### **West Thumb Geyser Basin**

The West Thumb Geyser Basin is situated at the western edge of a large bay along the shores of Yellowstone Lake. This area is known as the West Thumb caldera which was formed by a volcanic eruption that took place 174,000 years ago. This bay is actually a smaller caldera within the larger Yellowstone caldera. The resulting caldera filled with water, creating the bay.

#### **Old Faithful Geyser**

Old Faithful is a cone geyser in the Upper Geyser Basin of Yellowstone National Park. It is one of the park's most well-known natural features and is famous for its predictability. It generally erupts every 91 minutes.

Night

Hotel: Grant Village Yellowstone; similar

## Day 4

### Yellowstone National Park - Vehicle - West Yellowstone

---

All day

First of its kind, Yellowstone is home to world's largest super volcano and over 10,000 geothermal features. Here, you can find everything you expect to see in a National Park! Snow covered mountains, waterfalls, lakes, rivers, canyons, meadows, herds of buffalos, elks and the most amazing geothermal features in the world! Geysers, hot springs, fumaroles, and mud pots are the true wonders that make Yellowstone truly unique.

#### Itinerary:

**Yellowstone National Park** (Mandatory, 7 hours, we will head to the Yellowstone Norris Geyser Basin, Palette, Grand Prismatic Hot Spring, Yellowstone Canyon, Upper Yellowstone Falls, Artist Point, Mud Volcano Area, Hayden Valley, Fishing Bridge and other attractions. The tour itinerary will be adjusted according to the actual situation of the day, please refer to the actual arrangement that day.) → **West Yellowstone**

All day

#### Yellowstone National Park

Yellowstone National Park, the first national park in the United States, is a true gem that you will not want to miss out on! Yellowstone offers spectacular scenic views year-round and a chance to watch animals that migrate in and out of the park! No matter where you are in the park you will get to see these spectacular animals! Here you will find bears, wolves, moose, elk, bison and more!

#### Yellowstone Norris Geyser Basin

Norris Geyser Basin, named after an early Yellowstone Superintendent, may be the hottest geyser basin in Yellowstone. The stark, barren landscape of Porcelain Basin is the result of the acidic environment. Due to the hostile condition plants, algae and bacteria have difficulty in establishing themselves. Instead, the basin derives its colors from mineral oxides, in spectrums of pink, red, orange (iron oxides) and yellow (sulfur and iron sulfates). The largest geyser in the world is located here. Steamboat Geyser has long periods of dormancy, but when it does erupt it sends jets of water nearly 380 feet high in a spectacular display.

#### Fountain Paint Pot

The Fountain Paint Pot is named for the reds, yellows and browns of the mud in this area. The differing colors are derived from oxidation states of the iron in the mud. As with all hot springs, the heat in the caldera forces pressurized water up through the ground, which is expelled here. Also, rising gases cause the bubbling action. The bubble action in the mud varies with the seasons.

#### The Grand Prismatic Hot Spring

The Grand Prismatic Spring, approximately 370 feet (110 m) in diameter and 160 feet (50 m) deep, discharges an estimated 560 US gallons (2,100 L) of 160 °F (70 °C) water per minute. It is the largest hot spring in the United States, and the third largest in the world. The vivid colors in the spring are the result of microbial mats around the edges of the mineral-rich water. The mats produce colors ranging from green to red; the amount of color in the microbial mats depends on the ratio of chlorophyll to carotenoids and on the temperature gradient in the runoff. In the summer, the mats tend to be orange and red, whereas in the winter the mats are usually dark green. The center of the pool is sterile due to extreme heat.

### **Grand Canyon of the Yellowstone**

This impressive gap in the earth is the first large canyon on the Yellowstone River. It is 24 miles long, and can reach a quarter-mile in depth and 3/4 a mile in width. It is gorgeously colored.

### **Upper Yellowstone Falls**

Located a quarter mile upstream of the larger Lower Falls, the Upper Yellowstone River Falls plunge 109 feet down an eroded lava cliff into the basin below. The area below the falls has been subject to heavier erosion than above.

### **Lower Yellowstone River Falls**

The Lower Falls of the Yellowstone River in Wyoming are the largest by volume in the Rocky Mountains of the western United States, and they stand more than 300 feet tall-- almost twice as high as Niagara Falls.

### **Artist Point**

Artist Point is one of the most spectacular scenic areas in the Canyon Area of the Park. The sheer walls drop 700 feet to the bottom of the canyon. Upriver the powerful Lower Falls are still in view. Downriver the canyon widens and deepens to a maximum of 1,540 feet. The canyon walls are predominantly yellow but colors of blue, red, orange and brown are also present. The colors are ever changing and especially intensified after a rain with bright sunshine.

### **Mud Volcano Area**

The Mud Volcano blew itself apart in the early 20th century, but visitors can still see the impressive crater and other geothermal features in the surrounding area, such as the Mud Cauldron, Black Dragon's Caldron, and Dragon's Mouth Spring.

Night

Hotel: Wagon Wheel Hotel; similar

All day

In the West and Southwest, Yellowstone is home to some 10,000 thermal features, over 500 of which are geysers. After that, we will drive to Salt Lake City.

**Itinerary:**

**West Yellowstone → Yellowstone National Park** (Mandatory, 3 hours, Head to visit Mammoth Hot Springs, Upper Terraces, Roosevelt Arch and other attractions. Please refer to the tour guide for actual arrangements.) → **Salt Lake City**

All day

**Yellowstone National Park**

Yellowstone National Park, the first national park in the United States, is a true gem that you will not want to miss out on! Yellowstone offers spectacular scenic views year-round and a chance to watch animals that migrate in and out of the park! Night

Hotel: Radisson Hotel Salt Lake City Airport; similar

**Day 6**

**Salt Lake City - Vehicle - Salt Lake City - Vehicle - Las Vegas**

Morning Breakfast

**Breakfast Included**

All day

Today we will drive to Salt Lake City in the morning, visit the Virtue Kingdom for Latter Day Saints Church – Temple Square and the most expensive State House in America, Utah State Capitol. Afterwards we proceed to the Great Salt Lake, which its water is salty enough for people to float. Finally the tour guide will arrange for you to take light rail or Uber or hotel shuttle to the airport.

**Itinerary:**

**Salt Lake City → Utah State Capitol** (30 mins) → **Temple Square** (40 mins) → **Great Salt Lake** (Mandatory, 40 mins) → **Salt Lake City International Airport (SLC) → Las Vegas Harry Reid International Airport (LAS)**

All day

### Utah State Capitol

The Utah State Capitol is the house of government for the U.S. state of Utah. The building houses the chambers and offices of the Utah State Legislature, the offices of the Governor, Lieutenant Governor, Attorney General, the State Auditor and their staffs. The capital is the main building of the Utah State Capitol Complex, which is located on Capitol Hill, overlooking downtown Salt Lake City. The Neoclassical revival, Corinthian style building was designed by architect Richard K.A. Kletting and built between 1912 and 1916. The building was added to the National Register of Historic Places in 1978.

### Temple Square

Temple Square is a 10-acre (4.0 ha) complex, owned by The Church of Jesus Christ of Latter-day Saints (LDS Church), in the center of Salt Lake City. Contained within Temple Square are the Salt Lake Temple, Salt Lake Tabernacle, Salt Lake Assembly Hall, the Seagull Monument, and two visitors' centers. The square was designated a National Historic Landmark District in 1964, recognizing the Mormon achievement in the settlement of Utah.

### Great Salt Lake

Great Salt Lake, lake in northern Utah, U.S., the largest inland body of salt water in the Western Hemisphere and one of the most saline inland bodies of water in the world. The lake is fed by the Bear, Weber, and Jordan rivers and has no outlet. The lake has fluctuated greatly in size, depending on the rates of evaporation and the flow of the rivers that feed it. Like the Dead Sea, the Great Salt Lake exists within an arid environment and has chemical characteristics like that of the oceans. However, it has a much greater salinity than the oceans, since natural evaporation exceeds the supply of water from the rivers feeding the lake.

### Cost Description

#### Cost includes

1. Professional tourist vehicles;
2. Professional Chinese and English speaking driver and guide services;
3. Hotel accommodation included in the itinerary;

4. Breakfast as listed in the itinerary.

#### Cost excludes

---

1. Lunch, dinner and some breakfast during the trip;

2. Transportation costs to and from the departure point;

3. Service fee: \$18 per person per day, calculated based on the number of days of the booked trip, the same price for adults and children;

4. Personal expenses (such as meals, telephone bills, pay TV and all other personal expenses);

5. Mandatory and self-paid items in the itinerary;

6. Other expenses not listed in the fee inclusions.
