Washington D.C. In-depth Tour

The White House is a white neoclassical sandstone building covering an area of more than 73,000 square meters. It consists of the main building and the east and west wings. The White House is the office and residence of successive US presidents and is also synonymous with the US government. Many important US decision-making bills are signed and announced by the president in the White House. George Washington, the founding father of the United States, once expressed his views on the construction of the US President's residence: it must not be a palace, and it must not be luxurious, because the masters working here are servants of the state.

Lincoln Memorial

The Lincoln Memorial is a white ancient Greek temple-style building built to commemorate the 16th President of the United States, Abraham Lincoln. It is regarded as an eternal statue of the United States and a symbol of Washington. It is also the most famous rally for the pursuit of peace and democracy. Martin Luther King delivered his speech "I Have a Dream" here.

Vietnam Veterans Memorial

The Vietnam Veterans Memorial is located north of the Lincoln Memorial. It is a 500-foot-long V-shaped monument made of black granite. It is used to commemorate the American soldiers and generals who died while serving in Vietnam during the Vietnam War. The glittering black marble wall is engraved with the names of more than 57,000 US soldiers who died in the Vietnam War between 1959 and 1975, in chronological order of the date of each person's death.
